Message 1 of 1 , Apr 5, 2020 0 Attachment Dear All, I have a problem, due to the current  
Covid-19 crisis situation, the official confirmation came out to close down the museum  
indefinitely, as well as the Czech Reception, as well as the Czech English Tourist Board  
office which is also located here. We have a contract with a local company for the rent of  
the museum premises and the office for this year, but we have already discussed this with  
them and made a decision to move the museum to a different place. For this reason, we  
have put a deposit for this year to the bank, we are also in the process of renegotiating with  
the owners of the premises to get the same agreement for the future as we had for this  
year. For the time being, we are able to continue our exhibition, but we will have to stop  
the English Tourist Board office, as well as Czech Reception, and are still in contact with  
the other companies that have contracts with us. The current situation is extremely stressful  
for us and a lot of people are feeling this. We are trying to inform everyone we can, that  
we are still here and the museum is open, but people are very nervous and scared, as they  
are afraid that they might get infected. We are already trying to set up a collective donation  
(through the GoFundMe site) to help us pay for the deposit, the rent and other financial  
issues until we get a new place. We are also thinking of a possible alternative exhibition  
space for the time being, but that would need much more time and money. I just want to  
make sure that you know about all this and we are still here, we are not closed and people  
can still visit the museum. Thank you in advance, DanaQ: Can't connect my websocket to
